On the Cover

It was on Homecoming, 1954, when a red Cardinal bird named Cy made his first public appearance as Iowa State's mascot. A cardinal bird became the mascot because of numerous references to "cardinal" in school awards and organizations stemming from the school colors of cardinal and gold. His name, "Cy" - shortened version of Cyclone, the name of Iowa State's athletic team - was chosen from a national contest to name the bird. Over the years, the mascot costume has survived a plucking, several thefts and a car wreck. The costume has undergone incremental design changes over time with Cy's current "look" unveiled in 1995 to compliment the university's new athletic logo.

A little magic surrounds Cy wherever he goes... in community parades around Iowa, at campus events and historic moments in the life of the university. He attracts Cyclone fans of all ages, and puts on a feisty show when he meets other team mascots during athletic competitions. For 50 years, he has been the university's most recognized ambassador. Happy 50th birthday, Cy.

"Mascot photos provided by University Archives, ISU Library; and Department of Intercollegiate Athletics."

"Iowa State University does not discriminate on the basis of race, color, age, religion, national origin, sexual orientation, sex, marital status, disability or status as a U.S. Vietnam Era Veteran. Any persons having inquiries concerning this may contact the Director of Equal Opportunity and Diversity, 3680 Beardshear Hall, 515-294-7612"

Information Technology Security Incidents

If an IT security incident is suspected, immediate action should be taken to isolate the problem from the campus network. Powering-down the computer or disconnecting it from the campus network will stop any potentially threatening activity.

Contact your local or designated IT support professional.

If the incident has potentially serious consequence and requires immediate attention, contact the IT Security Response Team at 4-3221.

Student Billing

Each month you will receive a Telecommunications statement on-line detailing charges and long distance calls. (One resident in each University Family Housing, UFH, apartment is billed for basic service.) The total will appear on your Accounts Receivable Statement, along with any other university charges for that month. This information is available at <http://accessplus.iastate.edu/>.

Charges must be paid monthly to avoid loss of service and incurring a \$10.00 (non-refundable) reactivation charge.

Contact the Telecommunications Office, 271 Durham Center, 294-8585, if your code is lost or stolen!

You are responsible for all calls placed using your authorization code. Do not give this information to anyone!

NOTE: FRAUDULENT BILLING CAN LEAD TO PROSECUTION - It is illegal for a person to charge long distance calls to another person's calling card or authorization code without their permission. Persons placing such calls to avoid payment for service are subject to prosecution and if convicted are subject to imprisonment and/or fine.

Data Network Information

The Iowa State data network serves all campus buildings including Residence Halls and University Family Housing. Users can access on-campus resources such as the Library, and college/department servers. High bandwidth Internet connectivity is also provided. Remote access services are available to the off-campus community utilizing PPP and VPN secure login to support applications such as telnet and web browsing.

Connecting to the Campus Network from the Residence Halls

Ethernet connections are active in all residence hall rooms and Frederiksen Court apartments.

To use Ethernet, you will need:

Ethernet Card (unless your computer has a built-in Ethernet connector). Ethernet cards and cords are available in AIT Computer Sales, 191 Durham Center, or through computer dealers.

Assistance with configuring network settings is available through the Solution Center, 195 Durham Center, 296-6000. Several software applications, such as anti-virus software, are available to you at no charge. A list of site licensed software is available at <http://www.ait.iastate.edu/downloads>. Some functions (Telnet and FTP) may be new to you, but you'll find them quite useful.

Connecting to the Campus Network from University Family Housing (UFH)

DSL service is available in each University Family Housing (University Village and Schilleter Village) apartment. DSL is an always-on 1Mbps network connection. DSL uses the existing telephone wiring. It provides a connection directly to the campus LAN with full access to the Internet.

To use DSL, you will need the following:

Ethernet Card and Cable (unless your computer has a built-in Ethernet connector). Ethernet cards and cables are available in AIT Computer Sales, 191 Durham Center, or through computer dealers. Items purchased through AIT Computer Sales can be charged to your university account.

The SNAP Team is available for computer support and assistance. An assistant can visit your university apartment to install an Ethernet card and configure the network settings. The team also maintains a drop-off service in the Solution Center, 195 Durham Center. There is no charge for most standard services. Several software applications, such as anti-virus software, are available to you at no charge. A list of site licensed software is available at <http://www.ait.iastate.edu/downloads>.

NOTE

Lightning may damage equipment connected to a power source or a communications jack. The Telecommunications Office is not liable for damage caused by electrical storms. Surge protectors will not guarantee protection. We recommend that you disconnect both the power cord and communications cable during electrical storms.

Connecting to the Campus Network from Wireless

Wireless networking is a method of connecting a computer to the network using radio signals. There are two primary components involved in a wireless network: an access point and a wireless access card. The wireless access cards are similar to Ethernet cards, but with a built-in radio that communicates with the access points. They are most useful in mobile devices such as laptops and PDAs. The access point connects users to the campus network. It then transmits and receives radio signals in its immediate area to communicate with wireless access cards.

Visit the Telecommunications Web site, <http://www.tele.iastate.edu> for an updated wireless map as well as locations listed by building and room. Telecommunications will continue to expand the wireless network on campus in public areas and classrooms. Please check the Web site frequently for updates.

Contact the Solution Center for wireless assistance and support by telephone at 515-296-6000; by e-mail at solution@iastate.edu; or in person in 195 Durham Center, 8:00 a.m. to 5:00 p.m., Monday through Friday. On the Web, look for us at <http://www.ait.iastate.edu/help/>.

PPP: Connecting to ISU from Off-Campus

Access to the campus computers and the Internet from your home computer is available through ISU PPP service. Through ISU PPP, users may use email, surf the web, use instant messaging, and download files at speeds up to 56K.

To Establish PPP Service:

1. Open Web browser to:
<https://asw.iastate.edu/cgi-bin/acropolis/request/pppaccess>
2. Enter your Network-ID and password
3. Click on "Login"
4. Read the information about the services, click "Next"
5. Make sure "Activate" is selected and click the "Make PPP Request" button
6. Logout using the "Logout" button

You will receive a confirmation email when your PPP service has been activated.

PPP Configuration and software

Documentation for configuring ISU PPP on your computer is available at:

<http://www.ait.iastate.edu/network/offcampus.html>

(PPP con't)

Handouts and personalized assistance are available from the Solution Center, 195 Durham, 515-296-6000.

PPP modem pool numbers

There are two access numbers for the ISU PPP service:

Ames calling area	515-268-4565
Out of Ames	866-251-5488 (additional charges apply)

Costs and Additional Information

Detailed rate information and other important information can be found at: <http://www.tele.iastate.edu>

Temporary Data Protection - (Disable Call Waiting)

When using your telephone with a modem for data calls, activate Temporary Data Protection to prevent any interruption for the duration of your data call.

To activate:

On-Campus

LISTEN for dial tone
PRESS 113

Off-Campus

Check with your local service provider

Virtual Private Network (VPN)

A Virtual Private Network (VPN) provides authorized users secure access to the Iowa State University network when connecting from home or through another unsecured network (such as wireless). Because so many security threats to campus computer resources come in through the Internet connection, the University has blocked some services at the campus border. These services include Microsoft file and print sharing, Outlook/Exchange clients, and various connections known to be viruses/worms.

When using the VPN server, all services are available as if the user was directly on campus.

Those who are browsing the ISU web site, checking WebMail, or using most telnet or FTP software programs will not need to use the VPN. But if a secure connection with no blocking is needed, the following link will provide information on installing and using the VPN:

<http://www.ait.iastate.edu/pubs/wng334/wng334.html>

For more information, contact the Solution Center at 515-296-6000 or solution@iastate.edu.

The Solution Center

Do you have a question about computing at Iowa State? The Solution Center has an answer. We specialize in answers about getting connected to the network at ISU, which can be anything from requesting PPP service to getting help with site-licensed software and virus protection. The Solution Center also assists with e-mail and passwords. The Solution Center offers handouts and advice if you want to set up your computer on your own, or you can make an appointment with the SNAP team.

Contact the Solution Center by telephone at 515-296-6000; by e-mail at solution@iastate.edu; or in person in 195 Durham Center. Hours are from 8 a.m. to 5 p.m., Monday through Friday. On the Web, look for us at <http://www.ait.iastate.edu/help/>.

SNAP Team - (Getting Connected)

The Student Network Access Project (SNAP) is here to assist students who want to get connected to the campus network. An assistant can go to your on-campus residence to help install an Ethernet card in your computer, configure the card, and help load the networking software. The team also has a drop-off service in the Solution Center, 195 Durham Center. You may leave your machine with the SNAP team and have the setup done there. Off-campus students can also drop off machines to have the computer and modem set up to connect to the campus network through the PPP dial-up service.

SNAP is funded by your student computer fee so there is no charge for standard service. Contact the SNAP team by telephone at 515-296-6000.

Student Computer Fee Supported Services

Information current as of July, 2004 and is subject to change. Student computer fees support information technology initiatives including open computer labs, laptop computer checkout and wireless network access points on campus. The Computation Advisory Committee (CAC) maintains more complete information linked to the CAC webpage:

Being involved is one the most important aspects of your college experience. It enables you to mature personally, socially, intellectually, and spiritually. Involvement enhances your opportunities for career development exposing you to various skills, which will help you when you graduate to find gainful employment. Giving your time and talents to an organization will not only help that group, it will make your college experience a valuable & enjoyable one.

If you are interested in one of the organizations listed in this section go to the Student Activities Center online at <http://www.sac.iastate.edu> and click on GET INVOLVED. There you will be given information about each organization and all of the various ways you can get involved in clubs, intramural sports, Spirit Squad, leadership opportunities, volunteer opportunities, and the many music ensembles we have here at Iowa State University.

To register to vote in Iowa, you must:

- Be a citizen of the United States.
- Be a resident of Iowa.
- Be at least 17 ½ years old (you must be 18 to vote).
- Not have been convicted of a felony (or you must have had your rights restored).
- Not currently be judged by a court to be "incompetent to vote."
- Give up your right to vote in any other place.

Use this form to apply to register to vote or to make changes in your registration.

Filling out the form – Use a pen and print neatly.

Required: ID number, date of birth, sex, name, address and signature. If you do not include these, your registration will be rejected. Your name, birth date and ID number will be checked. If they don't match, your registration will be rejected and you will be notified by mail.

ID number: Iowa driver's license number (DL#) is required, if you have one. If not, put the number of your Iowa non-driver ID card. If you have neither of these, put the last 4 numbers of your social security number.

If your DL# is your social security number, you are required to give it. Social security, driver's license and ID numbers are not printed on voter registration lists sold to candidates and others. But those numbers may be on original records in county auditor's offices and open for public viewing. Iowa law (Sec. 48A.11) requires the state to ask for your DL# on this form.

Name: Put your name on the form the same way it is on your ID.

Address where you live: This is the address that is used to decide where you go to vote. If you do not have a street address, describe where you live in the box below your signature.

Read the form carefully before you sign it.

Tear off the Registration Form, fold it, tape it together and mail it to your county auditor. You must put a postage stamp on the form.

Within two weeks you should get a notice in the mail that your registration was received. If you don't, contact your county auditor.

Deadlines

10 days before a primary or general election and 11 days for all others. You may register after a deadline, but the registration will not be effective until after that election. A registration form postmarked at least 15 days before an election will be accepted for that election even if it is received after the deadline to register to vote. Registration is permanent. After you register, you do not have to register again unless you move.

Are you a citizen of the United States of America? ☐ Yes ☐ No
Will you be 18 years of age on or before election day? ☐ Yes ☐ No

NOTE: If you checked "No" in response to either of these questions, do not complete this form.

* Please print information on form.

Student Alphabetical Listings

Information in the student section of the university campus directory is taken from data supplied by the students to the university prior to September 9, 2004. Students who do not wish to have directory information published must file notice in the Office of the Registrar within the first 10 calendar days after the beginning of the fall semester. The university assumes that failure on the student's part to specifically request withholding directory information indicates the student's approval for the disclosure.

THE GARGANTUAN™ \$6.25

Huge-Giant-Monstrous-Unbelievable! This sandwich was invented by Jimmy John's brother Huey. It's huge enough to feed the hungriest of all humans! Tons of Genoa salami, sliced smoked ham, capicola, roast beef, turkey and provolone cheese jammed into one of our homemade French buns, then smothered with lettuce, tomato, onion, mayo & our homemade Italian dressing.

GIANT GOURMET CLUBS \$4.25

Our clubs have twice the meat of the gourmet sandwiches and are stacked on your choice of my thick 7-grain honey wheat bread or our famous yummy French bread.

7. GOURMET SMOKED HAM CLUB

A full 1/4 pound of smoked Virginia ham with provolone cheese and tons of lettuce, tomato and mayo. (A real stack!)

8. BILLY CLUB

Sliced roast beef, provolone & Grey Poupon mustard topped with shaved ham, lettuce, tomato and mayo! (Here's to my old pal Billy Burns who invented this great combo!)

9. ITALIAN NIGHT CLUB

Real Genoa salami, capicola, smoked ham and provolone with lettuce, tomato, onions, mayo and our homemade Italian vinaigrette.

10. HUNTER'S CLUB

A full 1/4 pound of fresh sliced medium-rare roast beef, provolone, lettuce, tomato & Hellmann's real mayoi!

11. COUNTRY CLUB

Fresh sliced turkey breast, smoked ham, provolone and tons of lettuce, tomato and mayo. (The very traditional yet always exceptional classic.)

12. BEACH CLUB

Sliced turkey breast, avocado and sliced provolone on the bottom, sprouts, lettuce, tomato, cucumber and mayo on top. (It just doesn't get any better!)

13. GOURMET VEGGIE CLUB

Tons of cheese, avocado, alfalfa sprouts, cucumber, lettuce, tomato & Hellmann's real mayoi! (One need not climb mountains and eat granola to enjoy this world-class club.)

14. BOOTLEGGER CLUB

Medium-rare roast beef and fresh sliced turkey loaded with lettuce, tomato & mayo. A classic certainly not invented by JJ but definitely tweaked and fine-tuned to perfection!

15. CLUB TUNA

The same as our Sorry Charlie, except this one's got more! A scoop of our homemade tuna with provolone, sprouts, cucumber, lettuce and tomato.

16. CLUB LULU
